

Sizewell C Community Study

Share your views, shape your community!

Thank you for your participation!

We'd like to extend our gratitude to everyone who participated in the co-design survey and focus groups advertised earlier in this paper. Your input has been invaluable in shaping this next stage, and we're excited to continue the conversation!

Have your say – join the next stage

The University of Suffolk is conducting an independent study on the Sizewell C project and its community impacts. Your perspectives will help shape how Sizewell C addresses community needs and aspirations as it develops. Your insights help ensure the Sizewell C project genuinely reflects community values and addresses local priorities. This is your chance to shape a development that respects and supports the Leiston area. While these discussions won't lead to changes in the core development, they are vital for shaping how the community can benefit from support measures.

How to get involved

Online anonymous survey

Share your thoughts on how Sizewell C might impact our community through a quick, anonymous online survey. Topics include your awareness and perception of the project, its potential economic, environmental, and social impacts, as well as concerns about local infrastructure and well-being. <https://uos.questionpro.eu/Sizewell-C-Community-Public-Survey>

Focus Groups discussion

Dive deeper into topics that matter most to the Leiston community. Join a focus group to discuss Sizewell C's potential impacts on the environment, jobs, health,

and more. Each participant will receive a voucher as a thank-you. If you're interested in joining a focus group, please visit this link to provide your details, and we will get in touch with more information: <https://uos.questionpro.eu/Sizewell-C-Focus-Group>

Project webpage

Visit our website to find out more about the study and the Sizewell C project. Stay informed on updates, engagement opportunities, and how your feedback is shaping local decisions (note: the webpage is still under development) <https://sizewell.suffolk-research.co.uk>
