

Leiston Community Land Trust Secretary's Report 2025

Notice of the Annual General Meeting of the Board has been emailed and posted to the membership list. Any errors of communication should be reported to us to address.

As mentioned at last year's AGM due to uncertainty with respect to the East Suffolk Council proposals for Market Square, the Board took the decision to wait before engaging in further new membership recruitment. Nevertheless, we are delighted to report that our membership currently stands at more than 300. This high number is quite unique in terms of Community Land Trusts, but it does show how much Leiston people care about their town and how it will be transformed in the future.

We continue to have access to number 22 Sizewell Road, where we hold the CLT meetings and other activities. While it is the CLT aspiration to develop Market Square as a cleared site, it is good to see the facia and integrity of the building being maintained as this helps reduce property damage from the weather and vandalism. The building has also had the statutory electrical and fire alarm safety checks
